Bistro Guignon, the fashionable eatery at 360 York St. in New York City's Tribeca neighborhood, is going to serve up a bounty of high-end cooking on the March 3 birthday of Jacques Guignon, the Frenchman whose colorful career in the restaurant business made a big splash in New York City years ago. On that day, Bistro Guignon will welcome visitors from around the world with its special menu. The special menu will be available from 11 a.m. to 4 p.m. at a cost of \$200 a person, and reservations are required. The menu will feature traditional French dishes, as well as dishes from Bistro Guignon's famed "gourmet menus." The gourmet menu dinner will be led by executive chef Billy West. Bistro Guignon is a by-appointment-only eatery and was named after the restaurant's main investor, the late M.G. Marchetti. Guests who reserve tables will experience a more upscale dining experience than in the dining room, which is more casual. "Guignon's Bistro is an exciting and prestigious restaurant," noted restaurant critic Phil McNulty of Gothamist. "Worth the price of admission. Don't miss it." Guignon's Bistro Address: 360 York St. Telephone: 212-941-3399 Reservations: www.guignons.com Dinner: \$200 per person. Hours: 11 a.m. to 4 p.m. Now you can get lots more California news delivered straight to your inbox by subscribing to the Los Angeles Times.

Q: Extending a finite field extension using Kronecker-Weber theorem As I understand, Kronecker-Weber theorem implies that any finite field extension $\mathbb{F}_p(\alpha_1, \dots, \alpha_n)$ (with p prime) is of the form $\mathbb{F}_p(\alpha_1, \dots, \alpha_n)$ where n is the degree of the extension and $\alpha_1, \dots, \alpha_n$ are roots of unity. Now, let's take $p = 29$
