A: The file THETA.part1.rar contains THETA for the original XBMC Build 1.0.2-b8-win64 (1.0.2-b8-win64) In the main directory, there is an additional file THETA.part1.rar.txt. This is the THETA for the current build 1.0.2-b7-win64 (1.0.2-b7-win64). Both were released on the same day, May 22, 2012, so I would guess they are one and the same. Q: "No objects have been added in the last 10 minutes" exception in Spring OAuth 2.0 I have a spring boot application which uses Spring OAuth 2.0. I have only included a Spring Security configuration and the default login page (spring-security-web-4.2.3.RELEASE.jar). My problem is that sometimes I get the following exception : No objects have been added in the last 10 minutes. Stack trace: org.springframework.web.util.NestedServletException: Request processing failed; nested exception is org.springframework.security.oauth2.provider.access.AccessDeniedException: No objects have been added in the last 10 minutes. at org.springframework.web.servlet.FrameworkServlet.processRequest(FrameworkServlet.java:984) at org.springframework.web.servlet.FrameworkServlet.doGet(FrameworkServlet.java:857) at javax.servlet.http.HttpServlet.service(HttpServlet.java:620) at org.springframework.web.servlet.FrameworkServlet.service(FrameworkServlet.java:842) at javax.servlet.http.HttpServlet.service(HttpServlet.java:727) at org.apache.catalina.core.ApplicationFilterChain.internalDoFilter(ApplicationFilterChain. 2d92ce491b
